MINUTE OF DISSENT

BY

SHRI L. R. NAIK, EX-M.P. (MEMBER)

BACKWARD CLASSES COMMISSION

I have endeavoured to the best of my ability and understanding of the socio-educational problems of the backward classes of citizens of India to assist the Chairman and other Members of the Backward Classes Commission in carrying out the arduous task entrusted to them by the President of India in terms of reference prescribed. I am happy that I received full co-operation and encouragement from them, especially Shri B. P. Mandal, Chairman of the Commission. It is, therefore, not without feelings of regret and reluctance that I write a separate minute of dissent only with reference to categorisation of socially and educationally backward classes of citizens, identified by the Commission in terms of reference made to them.

The Commission have, on certain criteria as delineated in Chapter XI prepared a common list of socially and educationally backward classes of citizens and I suggest its modifications in the following manner :—

I held very sincerely that castes/classes mentioned in the common list, each having homogeneous and cohesive characteristics, are not at the same degree or level of social and educational backwardness and I fear that the safeguards recommended for their advancement will not percolate to less unfortunate sections among them and the constitutional objectives proclaiming an establishment of an egalitarian society will remain a myth. Some of the communities in the common list who would be called hereinafter as 'Intermediate Backward Classes' on the lines delineated in the report of the Tata Institute of Social Studies (Volume IV) have made their presence felt in the caste hierarchical society in India, either on their numerical strength or their age-old co-existence along with other advance communities in villages and towns. Given better opportunities and encouragement in future, I have, no doubt, in my mind that they would integrate with the general populace sooner than later. But there are number of castes and classes in the common list who are incapable of making such a dent, in the near future, being extremely backward, both socially and educationally and also economically. Their economical backwardness is evidently the consequence of their age-old social and educational backwardness. By way of clarity they would be, hereinafter, called 'Depressed Backward Classes'

as distinct from the 'Intermediate Backward Classes'. I am of the opinion that these unfortunate classes of people, i.e. 'Depressed Backward Classes' seceded as they are in massive backwardness would take time for their enlightenment and advancement, unless, of course, concerted efforts, at national levels, are made by way of sagacious inputs of safeguards the benefits of which should be percolated to them in a large measure. So there is a compelling need to sift them carefully from the main common list and create a separate entity of equals or near-equals to bring about a healthy competition among them for the benefits of safeguards. The rest of the communities in the common list should then form a distinct category for the same reason of creating an atmosphere for competition among equals for the safeguards. This device is necessary in the interest of the nation as a whole.

The 'Intermediate Backward Classes', in my opinion, are those whose traditional occupation had been agriculture, market gardening, beatic-leaves growers, pastoral activities, village industries like artisans, tailors, dyers and weavers, petty business-cum-agricultural activities, heralding, temple service, toddy selling, oil mongering, combating, astrology etc. etc., who have co-existed since times immemorial with upper castes and had, therefore, some scope to imbibe better association and what all it connotes than many unfortunate 'Depressed Backward Classes' whose intermingling with the Indian society was either denied, prohibited and even segregated obviously on account of stigma of their traditional occupations, stigma of criminality, stigma of nomadism resulting in their abysmally low social status. They, generally, are ex-criminal tribes, nomadic and wandering tribes, earth diggers, fishermen, boatmen and palanquin bearers, salt makers, washermen, shepherds, barbers, scavengers, basket makers, furriers and tanners, landless agricultural labourers, watermen, toddy tappers, camel-hardsmen, pig keepers, pack bullock carriers, collectors of forest produce, hunters and fowlers, corn parchers, primitive tribes (not specified as Scheduled Tribes), exterior classes (not specified as Scheduled Castes), and begging communities etc. etc.

These very names amply connote their social and educational backwardness and, therefore, should have been postulated by the Founding Fathers of our Constitution as in the case of the Scheduled Castes and Scheduled Tribes for the purpose of specification.

Things that are obvious need no proof. I sincerely consider that this lapse on the part of our Constitution makers has resulted in a serious constraint in establishing an egalitarian society based on justice: social, economical and political. Three decades of Independence and the dawn of freedom is yet to bestow a willing smile on many a hamlet and slum of these unfortunate segments of the Indian society. They continue to submit to the decrees of fate rather than have the benefits of the decrees of our basic laws. Liberty, Equality and Fraternity so richly enshrined in the Constitution of our country have still to acquire meaningful proposition for all of them. Most of these communities are either Scheduled Tribes, Scheduled Castes depending on their characteristics in relation to some States, but not so in other States.

During the course of my extensive tours throughout the length and breadth of India, I observed that a tendency is fast developing among 'Intermediate Backward Classes' to repeat the treatments or rather ill-treatments, they themselves have received from times immemorial at the hands of the upper castes, against their brethren. I mean, 'the Depressed Backward Classes'. In an unequal society like ours, it is necessary that the Commission take all precautions so that the more helpless and needy segments are not deprived of the benefits of the various safeguards by avoiding cut-throat competition among unequals. The casteism is still very much in our midst and this is assuming new forms without showing much loss of its original vitality. In fact, several observers feel that the logic of democratic politics and mass mobilisation has brought casteism to the Centre of the stage. It is with regret, I affirm that political leaders belonging to 'Intermediate Backward Classes' are not immune from such aberration nor they are imaginative enough to bring about the advancement of the people who are at the bottom of our society, such as these 'Depressed Backward Classes'. All that they seem to be doing is to emulate some disgruntled upper castes in usurping economic and political power in the name of backward classes. This is a mental aberration which deserves outright condemnation from whatever quarters it may emanate—whether from Upper Castes or Intermediate Backward Classes.

The ancient adage that 'if a big fish and a small fish are put together, the former will swallow the latter', is still very apt in the context of the caste hierarchical society of India. Care should, therefore, be taken with all emphasis at our command that the benefits of safeguards are dispersed equitably and rationally, as far as possible, among all sections of the backward classes. This, I consider, can happen by avoiding competition for benefits among unequals or by bringing about competition among equals. I, therefore, propose that the common list should be categorised into two parts, 'A' and 'B'; 'A' consisting of those classes whom I have described as 'Depressed Backward Classes' and 'B' the rest of the communities in the list to be described as 'Intermediate Backward Classes'. The list of 'Depressed Backward Classes' in relation to States and Union Territories is given in *Annexure II*.

Quantum of Reservation

A percentage distribution of Indian population by castes and religious groups has been indicated in the body of the main Report. It is seen therefrom that the percentage population of Other Backward Classes including non-Hindu communities is derived at 52. It is further seen that the population percentage of Hindu backward castes/groups is 43.70, whereas that of non-Hindu communities is 8.40. Now on categorisation of Other Backward Classes into 'Intermediate Backward Classes' and 'Depressed Backward Classes', a fresh statement of percentage distribution of Indian population is prepared and is at *Annexure I*.

It is seen therefrom that the percentage population of 'Depressed Backward Classes' is 25.56 and that of 'Intermediate Backward Classes' is 26.44. It is undoubtedly safe to assume that these two categories are equal to each other from their population point of view.

After good deal of discussions with which I am in full agreement, the Commission has recommended reservations to the extent of 27 per cent in all services under the Central Government. It has further recommended that seats should be reserved in all scientific, technical and professional institutions run by the Central as well as State Governments and the quantum of reservation should be the same as in public services, i.e. 27 per cent.

In all fairness and in view of the fact that the 'Depressed Backward Classes' are comparable in matters of backwardness to those of the Scheduled Castes and Scheduled Tribes, I recommend 15 per cent reservation for them out of 27 per cent both in public services and educational institutions as mentioned above. For all other concessions they should be treated on par with SC/ST. I refrain from recommending political reservation. I, however, urge them to unite and organise. They have nothing to lose except their chains of age-old degradation, social, economical and political. Hatred towards none and love and affection for all should be their motto. They should recognise that an essential part of their battle against their social backwardness is to be fought in their own minds for their own salvation. At the same time, I have a word of caution for the ruling elite in our country that there cannot be an egalitarian society unless the depressed are enabled to be on par with them. They should, therefore, refrain from agitating against any reservation for the backwards and if they do so it is at their own peril and that of the nation.

Acknowledgement

I am quite aware that Shri B. P. Mandal, Chairman of the Commission is mainly responsible for my induction in the Commission. I am grateful to him. His encouragement and profound kindness that he showered on me will be ever cherished. I am also

grateful to my other esteemed and distinguished colleagues for their co-operation.

I must put on record the invaluable co-operation and assistance I received from Dr. S. Bheemappa, Professor of Surgery, Bangalore Medical College, Bangalore (Karnataka) in identifying the 'Depressed Backward Classes' from all over India and in deriving

their population figures. It has been his second habit to understand the problems of the underdog at their depth. His expert advice on the subject to the Commission deserves all appreciation.

I am also grateful to all Co-opted Members from all the States and Union Territories for their co-operation and advice.
